A Rendezvous with Colorado History

- **Symbols of Colorado**
- **Geography of Colorado**
- **Prehistoric People of Colorado** (What does the Bible say about cavemen, prehistoric men, Neanderthals? The Bible does describe a period of traumatic upheaval upon the earth—the flood (Genesis 6-9), during which time civilization was utterly destroyed except for eight people. Humanity was forced to start over. It is in this historical context that some scholars believe men lived in caves and made use of stone tools. These men were not primitive; they were simply destitute. And they certainly were not half ape. The fossil evidence is quite clear: cavemen were human men who lived in caves.)
